

Student Spotlight

Name: Will Nguyen

School/Degree: A.T. Still University School of Osteopathic Medicine in Arizona

What student program were you involved in at HSO?

The medical clerkship partnership between HSO and ATSU-SOMA for our 3rd and 4th year rotations.

What are your career goals/interests?

My interest in medical specialties varies greatly, and I am unsure which specialty I'll end up choosing next year. Outside of medicine, I love to coach sports, especially basketball, and hope to coach high school basketball in the future.

I also love to do magic tricks, specifically card tricks, and have already integrated that into rotations, as I distracted pediatric patients with card tricks while they were getting vaccinations. Thus, I hope to continue to do magic tricks both in the office and in social gatherings.

What do you like to do in your free time?

I love to play video games with my close friends and family. I am an avid Marvel Cinematic Universe fan, and I have attended nearly every opening night premiere of a Marvel movie in theaters since 2015.

What's something you've done recently that was out of your comfort zone?

Hiked some of Yosemite national park last March

What made you interested in HSO?

The HSO mission to improve both access and quality of care for all patients really resonates with my own principals, as well as with the type of physician I want to be.
